

Your love and your Amazon password are all I need

Furever Friends Cat Rescue is a nonprofit organization based in Altona. We operate with volunteers, donations, and support from our community. Our mission is to rescue the lost, abandoned, and homeless cats in our community. We are dedicated to the care and wellbeing of our local feral cat population and to help educate the public on the need to spay/neuter pets, the prevention of animal cruelty, and the importance of responsible pet ownership.

Hi there! My name is Teak.

I walked across the computer keyboard today and ordered my foster family four rice cookers and a squatty potty...oops! Then I lay down on it and accidentally signed them up for 6 years of the Hallmark Christmas movie channel. I'm just a little kitten, I didn't think I was heavy enough to press the keys...but I was!

My foster mom scooped me off of the keyboard pretty fast, but not before all her reminder Post-it Notes stuck to my long fur. I looked at her with my cute face and she forgave me. I told her if I fits then I sits. Now she keeps the keyboard locked. Too bad, I didn't get to order that huge new cat tower I wanted from Amazon.

I think I'm pretty good at using the computer. Maybe when I grow up, I should look into a career in programming. Though, I haven't ruled out being an online influencer. I could teach people all about how to take care of longhaired cats, so our beautiful fur doesn't get tangled and matted.

But before I can look into my future, I need to find an adoptive family. A family that can put me through school, or at least provide me with my own computer to practice and play with. I'd also like your Amazon account password please, because I have some things I need. Like a litter box, canned kitten food, a scratcher, ooh and plenty of toys because I loooooove to play!

I hope my new family will have some cats to play with, maybe even a dog - if it's nice and calm with little kitties like me.

I hope my new family likes spunky and confident cats because between my snuggles sessions, that's what I'm am. I play gentle and have self-control, so it's okay if they have kids. Except when it comes to online shopping, I don't have much self-control there!

My foster mom says I'm very sweet and a family will be lucky to adopt a little cuddle bug like me, so why don't you get your application in? I've already been vetted, including my spay. Yes, they can do that at any age now. So, some free advice, if you have young kittens like me, get their spay and neuter done early because we heal super-fast and hardly even notice.

I overheard the Furever Friends Cat Rescue volunteers talking, and they said they don't need any more accidental kitten litters to add to the overpopulation problem that is happening in this area. Since I've had my vetting I won't add to the problem and I'm all ready to go to a new home. I'll keep an eye out and hope to see you soon!

Teak is a multi-coloured, longhaired female. Her birthday is May 30, 2021. She is fully vetted. For more information, please contact us. Call/text 204-304-9173, email furever_friends@icloud.com, visit our website www.fureverfriend-saltona.com, or find us on Facebook.
